Discipline

I am a fast learner whether it is a program or process. I never fail to make a deadline, and I am extremely serious when it comes to work. I am also extremely sociable and amiable. I am always open to criticism and use it to hone and make my work as well as myself better.

Summer of 2006

Suhm Springs is the largest spring manufacturer in the state of Texas. They supply custom springs to customers like Halliburton to Levis Jeans. I was an inventory clerk for the main factory location. I organized shipping orders and springs from 7 am to 4:30 pm. They needed these items sorted to optimize efficiency and storage capacity at the main location.

Spring of 2007 to Fall of 2008

Ski Shores has offered a scenic lakeside dining experience on Lake Austin for 55 years where you can dock your boat and take a break from skiing or go to enjoy the scenery. I was a cook and expose. I cooked and made everything in the retaurant as well as cleaned the retaurant in every facet.
